

MEDICAL HISTORY AND SCREENING FORM

The purpose of preventive exams is to screen for potential health problems and provide education to promote optimal health. It is best practice for chronic health problems to be addressed by your community primary care provider. In keeping with these standards and to promote continuity of care, Sindecuse clinicians will not be providing evaluation or treatment for chronic conditions during preventive exams. Please complete the information below prior to the arriving for registration. Preventive exams will be rescheduled for patients without completed Medical History and Screening Forms.

General Information

Name _____

Address _____

Contact phone numbers _____

Birth date _____
